

## **NATURAL, HEALTHY LOCKS WITH FUT HAIR TRANSPLANT**

*Dr. Marc Dauer in Malaysia for seminar and live demo*

By invitation from Clinic Health Pathway, leading American hair transplant surgeon, Dr. Marc Dauer, conducted a three-day seminar on advanced hair transplant methods from 6th to 8th July at their centre in Dua Annexe, Kuala Lumpur.

Based in Los Angeles, Dr. Dauer – whose clients include a slew of Hollywood stars – is a leader in permanent hair restoration, utilising total Follicular Unit Transplantation (FUT). In association with the American Academy of Aesthetic Medicine, Dr. Dauer presented lectures on the theoretical aspects of the latest techniques in FUT and worked with a group of Malaysian doctors and specialists to train them on the skills required for the procedure. A live demonstration showed Dr. Dauer assisting three doctors who were performing the procedure on a patient.

When asked about his experience here, Dr. Dauer said he enjoyed imparting his knowledge to other physicians and hopes it will help them stay on top of their fields. 🌐
